NEW LONG DISTANCE METALLIC CIRCUIT CONNECTIONS.

Telephone service between Chicago and Racine, and other points in Wisconsin, heretofore rendered over grounded circuit lines, has been discontinued, and telephone service between these points will hereafter be via the Metallic Circuit Lines of the American Telephone and Telegraph Company (Long Distance Telephone Company). For rates see "Toll Stations," page 353, and also alphabetically in the body of this Directory.

Special rates for private lines, also for stated amount of service per month, or for Copper Metallic Circuits and Long Distance Instruments, will be furnished upon application to F. M. Buck, Contract Agent, 203 Washington Street.

Chicago Telephone Company.

IMPORTANT NOTICES.

CHANGE OF NUMBERS.

The increasing number of lines entering the various exchanges of the Company in the City of Chicago, makes it necessary to enlarge the scope of numbers assigned to each exchange. The present system, in which the first figure of the subscribers' number is the index of the exchange, must give way to a more flexible plan, as the use of numbers containing more than four figures has proved quite unsatisfactory, and experience has shown that errors upon the part of operators are less frequent when the number of figures is small. After careful consideration it has been decided to adopt the plan now in use in New York City, whereby each exchange is designated by a name prefixed to the subscribers' number. This plan assigns to each exchange a full complement of numbers from one upward, and avoids any discrimination in numbering between the different sections of the city.

The following schedule shows the present and the new assignment of numbers:

Present numbers	1 to 2999 and 4000 5399 }	become	"Main-1,"	to	"Main-5399"
"	3001 " 3999	"	"North-1"	to	"North-999"
"	7001 " 7999	"	"West-1"	to	"West-999"
"	8001 " 8999	"	"South-1"	to	"South-999"
"	9001 " 9499	"	"Canal-1"	to	"Canal-499"
"	9500 " 9799	"	"Yards-500"	to	"Yards-799"
"	9800 " 10999	"	"Oakland-800"	to	"Oakland-999"
"	12001 " 12499	"	"Lakeview-1"	to	"Lakeview-499"

The changes shown in the schedule above involve the prefixing of the name of the exchange to each and every number, and the dropping of the index figures at the left of the present numbers, with the exception of Main Exchange, **where the FIGURES will remain as at present.** For example: Telephone 3999, under the old plan, would be "North-999," under the new plan. In the same way, telephone 9799, under the old plan, would be "Yards-799," under the new plan, etc., etc. The new system will take effect Feb. 15th, 1892, and the current Directory is printed accordingly.

Realizing to the fullest extent the inconvenience to its patrons, resulting from any change affecting their telephone numbers, the Company has deferred this action until the exigencies of the case have demanded it; and has given early notice, that the inconvenience and annoyance may be reduced to a minimum.

Any additional information desired, will be promptly given on application to Mr. F. M. Buck, Contract Agent, Telephone Building, 203 Washington St.

CHICAGO TELEPHONE CO.

TELEPHONE SERVICE.

INSTRUCTIONS FOR USING TELEPHONES.

To call the exchange office, give *two* or *three* turns of the crank. If everything is right, your own bell will ring. Take down your telephone immediately and listen for an answer from the exchange, without waiting for a ring. *Give only the number of the party you want*, keeping the telephone to your ear. The operator will connect you with the party called for and ring his bell. If he does not answer the first ring the operator will call him a *second* time.

When you have finished talking, hang up your telephone and give one or two turns of the crank for disconnection. Both parties should ring for disconnection.

REPORTING TROUBLE.

This Company desires to give the best service possible, and will correct faults when discovered, but owing to the extreme sensitiveness of the telephone to many disturbing causes, the instruments may operate unsatisfactorily without its knowledge. It can only learn of this from the subscriber, who is, therefore, earnestly requested to promptly report by postal card, messenger, or through a neighboring telephone, all trouble, whether with the instruments, the line, or with the service, to the

Manager of the Main Office (telephone No. Main-480), Telephone Building, 203 Washington street, if the telephone number has the word "Main" prefixed.

Manager of North Office (telephone No. North-450, corner Chicago avenue and Clark street, if the telephone number has the word "North" prefixed.

Manager of West Office (telephone No. West-145), corner Madison street and Ashland avenue, if the telephone number has the word "West" prefixed.

Manager of South Office (telephone No. South-352), corner 22d street and Indiana avenue, if the telephone number has the word "South" prefixed.

Manager of Canal Office (telephone No. Canal-80), corner Canal-port avenue and 21st street, if the telephone number has the word "Canal" prefixed.

Messages received by the Telegraph Company, addressed to subscribers of the Telephone Company, can be transmitted to such subscribers within the Exchange from the telephones placed in the Telegraph Company's offices, without additional charge to the subscribers. But the Telephone Company assumes no responsibility for the correct transmission of the messages, and does not collect the telegraph charges.

If subscribers desire that telegraph messages addressed to them be delivered by telephone, they should make application to the Telegraph Company for such delivery.

PUBLIC TELEPHONES.

(See List on last pages of this Book.)

For the accommodation of non-subscribers and the public generally, the company has established public telephone stations in different parts of the city, where telephone service may be had at a cost of ten cents per conversation of five minutes.

Subscribers having other than public telephone contracts are forbidden, by the terms of the contract, to allow the use of their telephones to "outsiders;" and in case such use is allowed by the subscriber, the company is authorized to remove the telephone.

Private telephone subscribers are requested to refer unauthorized persons desiring the use of the telephone to the nearest public telephone station.

MOVING TELEPHONES.

When a subscriber desires his telephone, district box, or other apparatus moved from one address to another a new contract is necessary for the new address, as contracts cover service at specific addresses only. If the subscriber has paid under the old contract beyond the date of the new contract, such amount will be credited on the latter. If changed to a different location in the same room no change of contract is necessary.

On account of the time needed for changing the connections the Telephone Company requires a written request and at least 10 days in which to complete the work; except May moves, for which it requires 30 days, more time being needed on account of the large number of changes to be made at that time. A blank form for the above moving notice will be found on the opposite page. Any change made, except by the Company, is a violation of contract.

All requests for changes in location of telephones should be addressed to F. M. Buck, Contract Agent, Room 33, Telephone Building, 203 Washington street.

If you wish to have Telephone moved, fill out and mail to "Chicago Telephone Company
203 Washington Street," the following Order at least ten days before date of removal.

AMERICAN DISTRICT TELEGRAPH SERVICE.

MESSENGER SERVICE.

By telephoning to the nearest Messenger Office, or by turning in the signal for "Messenger" upon a District Box, an uniformed Messenger will be immediately sent to the address of the party calling, prepared to deliver letters, invitations, light packages, etc., to go for a physician, medicine, carriage, express, or on any other errand desired.

Uniformed Messengers will be promptly furnished, at reasonable rates, on application at any Messenger Office, to distribute circulars, pamphlets, etc.

District Boxes will be furnished, at reasonable rates, for calling "Messengers," and also for calling "Doctor," "Police," "Express," "Coupé," "Carriage," and "Fire," on application to F. M. Buck, Contract Agent, Telephone Building, 203 Washington street.

WRITTEN MESSAGES BY TELEPHONE
WITHIN THE CITY.

Subscribers desiring to send messages to parties having no telephones, in any part of the city, can call for the American District Messenger Office, located nearest the party to be reached, and transmit the message by telephone. A list of such offices will be found above.

The A. D. T. Office will copy the message, and deliver immediately by special messenger, charging ten cents for every twenty-five words, exclusive of address, for the message, and the usual rates for messenger service, according to the distance. These amounts will be charged against the Telephone at which the message originated, and collected at the end of the month.

On account of the impossibility of determining fairly where errors in oral communications are made, the Telephone Company assumes no responsibility for errors in messages transmitted or received through the telephone. Due diligence, however, will be exercised to make the transmission of messages accurate and reliable. This arrangement will be found of great convenience to subscribers for reaching parties not connected with the Exchange, particularly in the remote parts of the city.

FIRE ALARM AND WATCH SERVICE.

Attention is called to the Watch Service of this company, which is effected by placing a number of watch boxes in an establishment, so located that to reach them the watchman must travel over the entire premises. Signals are turned in at stated intervals by the watchman, from each box as he passes it, which are automatically recorded on the receiving instrument in the District Office.

When a signal is overdue, a special police officer from the District Office will visit the establishment, and endeavor, quietly, to communicate with the watchman, and find out the cause of the missing signal. If unable to find the watchman, or if any suspicious circumstances are apparent, he will notify the nearest policeman, or police station, and proprietor of the establishment, if the latter so requests when making the contract for watch service. No extra charge is made for such visits of the policeman from the District Office.

The boxes used for this purpose can be made to call for police or fire, so that in the discovery of burglars or fire by the watchman, while traveling on his beat, the necessary assistance can be called without the loss of valuable time. All offices are connected with wires to the nearest police and engine houses.

The Chicago Fire Underwriters' Association recommends this service as a means of protection against fire and a check on watchmen, and authorizes a reduction in insurance rates where it is used.

For full information apply to F. M. Buck, Contract Agent, Room 33, Telephone Building, 203 Washington street.

BURGLAR ALARM SERVICE.

The Burglar Alarm Protection consists of a complete system of wiring on the premises, also a direct wire from the premises to the nearest office.

If the protection is tampered with in any way an alarm is automatically given at the Company's office, upon receipt of which a special police officer is dispatched to the premises, with instructions to remain until properly relieved, and the proper party notified, according to such written instructions as may have been previously given the Company.

For full information apply to F. M. Buck, Contract Agent, Room 33, Telephone Building, 203 Washington street.

SPECIAL NOTICE.

THIS COMPANY desires to give the best service possible, and will correct faults when discovered, but owing to the extreme sensitiveness of the telephone to many disturbing causes, the instruments may operate unsatisfactorily without its knowledge. It can only learn of this from the subscriber, who is therefore requested to promptly

report any difficulty to the Manager of the office into which his line runs. If the difficulty so reported is not removed within twenty-four hours, the subscriber is earnestly requested to send notice in writing to W. W. Nichols, Superintendent, Telephone Building, 203 Washington street. In this connection, please see "Reporting Trouble," page 3.

SPECIAL NOTICE.

THIS COMPANY desires to give the best service possible, and will correct faults when discovered, but owing to the extreme sensitiveness of the telephone to many disturbing causes, the instruments may operate unsatisfactorily without its knowledge. It can only learn of this from the subscriber, who is therefore requested to promptly report any difficulty to the Manager of the office into which his line runs. If the difficulty so reported is not removed within twenty-four hours, the subscriber is earnestly requested to send notice in writing to W. W. Nichols, Superintendent Telephone Building, 203 Washington street. In this connection, please see "Reporting Trouble," page 3.

SPECIAL NOTICE.

THIS COMPANY desires to give the best service possible, and will correct faults when discovered, but owing to the extreme sensitiveness of the telephone to many disturbing causes, the instruments may operate unsatisfactorily without its knowledge. It can only learn of this from the subscriber, who is therefore requested to promptly report any difficulty to the Manager of the office into which his line runs. If the difficulty so reported is not removed within twenty-four hours, the subscriber is earnestly requested to send notice in writing to W. W. Nichols, Superintendent, Telephone Building, 203 Washington street. In this connection, please see "Reporting Trouble," page 3.

SPECIAL NOTICE.

THIS COMPANY desires to give the best service possible, and will correct faults when discovered, but owing to the extreme sensitiveness of the telephone to many disturbing causes, the instruments may operate unsatisfactorily without its knowledge. It can only learn of this from the subscriber, who is therefore requested to

promptly report any difficulty to the Manager of the office into which his line runs. If the difficulty so reported is not removed within twenty-four hours, the subscriber is earnestly requested to send notice in writing to W. W. Nichols, Superintendent, Telephone Building, 203 Washington street. In this connection please see "Reporting Trouble," page 3.

SPECIAL NOTICE.

THIS COMPANY desires to give the best service possible, and will correct faults when discovered, but owing to the extreme sensitiveness of the telephone to many disturbing causes the instruments may operate unsatisfactorily without its knowledge. It can only learn of this from the subscriber, who is therefore requested to promptly report any difficulty to the Manager of the office into which his line runs. If the difficulty so reported is not removed within twenty-four hours, the subscriber is earnestly requested to send notice in writing to W. W. Nichols, Superintendent, Telephone Building, 203 Washington street. In this connection, please see "Reporting Trouble," page 3.

SPECIAL NOTICE.

THIS COMPANY desires to give the best service possible, and will correct faults when discovered, but owing to the extreme sensitiveness of the telephone to many disturbing causes the instruments may operate unsatisfactorily without its knowledge. It can only learn of this from the subscriber, who is therefore requested to promptly report any difficulty to the Manager of the office into which his line runs. If the difficulty so reported is not removed within twenty-four hours, the subscriber is earnestly requested to send notice in writing to W. W. Nichols, Superintendent, Telephone Building, 203 Washington street. In this connection, please see "Reporting Trouble," page 3.

SPECIAL NOTICE.

THIS COMPANY desires to give the best service possible, and will correct faults when discovered, but owing to the extreme sensitiveness of the telephone to many disturbing causes, the instruments may operate unsatisfactorily without its knowledge. It can only learn of this from the subscriber, who is therefore requested to promptly report any difficulty to the Manager of the office into which his line runs. If the difficulty so reported is not removed within twenty-four hours, the subscriber is earnestly requested to send notice in writing to W. W. Nichols, Superintendent, Telephone Building, 203 Washington street. In this connection please see "Reporting Trouble," page 3.

SPECIAL NOTICE.

THIS COMPANY desires to give the best service possible, and will correct faults when discovered, but owing to the extreme sensitiveness of the telephone to many disturbing causes, the instruments may operate unsatisfactorily without its knowledge. It can only learn of this from the subscriber, who is therefore requested to promptly report any difficulty to the Manager of the office into which his line runs. If the difficulty so reported is not removed within twenty-four hours, the subscriber is earnestly requested to send notice in writing to W. W. Nichols, Superintendent, Telephone Building, 203 Washington street. In this connection, please see "Reporting Trouble," page 3.

OF
CHICAGO TELEPHONE
CO.

See Tariff, Page 353.

THE CHICAGO TELEPHONE CO.

Is prepared to furnish EXCHANGE TELEPHONES for places of business and residences upon application; also, to furnish Private Lines connecting two or more Stations on one line; or Telephone Speaking Tube Systems connecting the different departments of large stores, factories and apartment buildings.

Especial attention is called to the advantage and convenience of the Telephone in Residences for calling Physician, Groceryman, Marketman, or for Police and fire calls, day or night.

American Distinct Telegraph.

Messengers furnished promptly day or night. Notes, Packages, Circulars, Invitations, etc., delivered. Addressing of Circulars and Invitations a Specialty.

SEE PAGE 7.

CHICAGO,

SPECIAL SERVICE,

MILWAUKEE

DIRECT WIRES.

SEE PAGE 376.

Fire Alarm and Watch Service System.

The Chicago Fire Underwriters' Association recommends this service as a means of protection against fire, and a check on watchmen, and authorizes a reduction in insurance rates where it is used—SEE PAGE 8.

Burglar Alarm Service.

Absolute protection against Burglars and a Check upon Employees. Bank Vaults, Safes and Stores guarded by means of Electricity. Inspection invited.
For full information apply to

SEE PAGE 8.
